Thank you for purchasing this GRAYTON watch. The following instructions are provided to help you familiarize yourself with the proper operation and care of your GRAYTON watch. To ensure correct use, please read and follow the instructions carefully.

**Water Resistance**

Water resistance is rated based on laboratory pressure tests comparable to practical conditions. Water resistant watches can be cleaned with a toothbrush and soapy water, and then dried completely. They can be exposed to water splashes, rain, short-distance swimming, diving, etc. However, these ratings do not guarantee that the watches will be watertight in all situations. Precise water resistance of watches is rated based on laboratory pressure tests comparable to practical conditions. Water resistant watches can be cleaned with a toothbrush and soapy water, and then dried completely. They can be exposed to water splashes, rain, short-distance swimming, diving, etc. However, these ratings do not guarantee that the watches will be watertight in all situations.

**Proper Use and Periodic Checks**

- Do not expose your watch to direct contact with solvents, detergents, and perfumes, cosmetic products, etc., since they may harm your watch.
- Avoid thermal or other shocks as it may harm your watch. In the event of a violent shock, please have your watch checked by an authorized GRAYTON service center.
- Do not expose your watch to intense magnetic fields such as loudspeakers, portable telephones, computers, or refrigerators and other electromagnetic appliances.
- Do not expose your watch to sudden temperature changes (exposure to sunlight followed by immersion in cold water) or extreme temperatures (over 60°C (140°F) or below 0°C (32°F)).
- Do not expose your watch to magnetic fields such as loudspeakers, portable telephones, computers, or refrigerators and other electromagnetic appliances.

**Care and Checks**

- Clean the case and bracelet regularly using a soft cloth to prevent any corrosion caused by perspiration. All water resistant watches can be cleaned with a toothbrush and soapy water, and then dried completely.
- Make sure that the crown has been pushed/screwed down tightly after every operation. Do not under any circumstance open the crown or metallic straps and chains, such as leather, textile, rubber; peeling of the plating.
- Check the crown and bracelet regularly using a soft cloth to prevent any corrosion caused by perspiration. All water resistant watches can be cleaned with a toothbrush and soapy water, and then dried completely.
- Make sure that the crown has been pushed/screwed down tightly after every operation. Do not under any circumstance open the crown or metallic straps and chains, such as leather, textile, rubber; peeling of the plating.

**Limited Warranty**

Your GRAYTON watch is warranted by GRAYTON and the MONTRICHARD GROUP for a period of twenty-four (24) months from the date of purchase. This warranty does not apply to water resistant watches. The warranty only applies to watches that have been maintained according to the instructions provided by GRAYTON. The warranty is void if the watch or any part(s) have been repaired or altered by persons other than those authorized by GRAYTON. This warranty is non-transferable and is void if the watch has been tampered with or damaged. The warranty will be deemed null and void if the watch is not accompanied by the original purchase receipt. This warranty does not cover normal wear and tear, including the crystal, bracelet, straps, and any other component that is subject to wear over time. The warranty is void if the watch has been tampered with or damaged. The warranty will be deemed null and void if the watch is not accompanied by the original purchase receipt.
